DETAILED ACTION

REASONS FOR ALLOWANCE

1. Claims 22-23, 36, and 40-63 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

The applicant's Remarks, filed on 10/23/2006, have been carefully reviewed with update search. Consequently, reasons for allowance of claims 22-23, 36, and 40-63 are set forth in the following.

Regarding claims 36, 47, 49, and 58, the prior art made of record fails to clearly teach or fairly suggest the features of an Internet telephony device comprises a plurality of frequency filters, each corresponding to a different frequency indicative of said multi-frequency signal, and each filter constructed and adapted to detect a different frequency indicative of said multi-frequency signal, a plurality of capacitors, one corresponding to each of said plurality of frequency filters, each connected to a different one of said plurality of frequency filters, for filtering out signals having certain durations; a plurality of switches connected in series, one corresponding to each of said plurality of frequency filters, each connected to a different one of said plurality of capacitors, for selectively causing said audio signal to be routed to the first output device when said frequency indicative of said multi-frequency signal are detected for a sufficient period of time by said plurality of frequency filters in conjunction with said plurality of capacitors, and otherwise causing said audio signal to be routed to said second output device, in combination with other limitations, as specified in the independent claims 36, 47, 49,

and 58, and further limitations of their respective dependent claims 22-23, 40-46, 48, 50-57, and 59-63.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
